

Arlo Essential Indoor Camera

The security camera that protects
your home from the inside.

Protect what matters most, 365-days a year

Video in 1080p

2 way audio

130° Viewing Angle

Night Vision

Why buy an Arlo Essential Indoor Camera?

HD video and night vision

Get a clear picture of who and what is in your home with 1080p HD video and crisp night vision.

Total control of your privacy

Close the privacy shield over the lens when the camera is set to disarm mode and have it automatically open when you leave home.

365-day protection from the inside

Plugs into your mains power for straight forward set-up and 24/7 power.

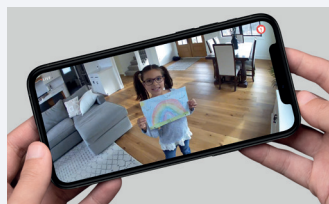

Built-in Security Siren

Integrated siren that can trigger automatically when motion is detected or be set-off manually from the app to deter intruders.

Connect direct to WIFI

No base station required – simply connect to your 2.4Ghz wifi network for the camera to work.

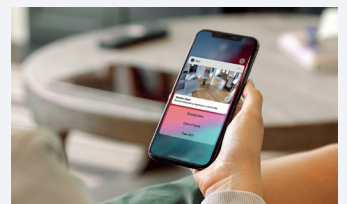

Crystal clear audio

Hear and speak to anyone in your home from your smartphone, through the built-in speaker and microphone.

Arlo Service Plans

We know you'll love the added peace of mind that Arlo Service plan offers, so we've included a 3-month trial with every product.

Notifications to your phone

Receive an alert when your camera detects motion or sound and check the live video feed to see what triggered it.

What is in the box for the 1 camera kit:

- (1) Arlo Essential Indoor Camera
- (1) Wall Mount & Screw Kit
- (1) Battery Charging Cable
- (1) Power Adapter
- (1) Quick Start Guide

Who is Arlo Essential Indoor right for?

- The customer new to home security or new to arlo
- The customer who wants to:
 1. Protect their home from intruders
 2. Detect home emergencies
 3. Keep an eye on Pets and Family while away

How to install and connect

- Connects and controlled via your smartphone
- Connects direct to Wifi (a 2.4Ghz network) through the Arlo app
- Install yourself just plug into a power socket

TOP TIP

Use the mounting plate to attach the camera to the wall so it can watch over the whole room.

Make the Essential Indoor Camera even more effective

Additional Peace of Mind

How does the privacy shield work

- When the camera is set to disarm mode the privacy shield will close over the lens, and both video and audio will be disabled.
- When it is set to arm-mode the cover automatically opens and the camera begins to monitor.

TOP TIP

You can use your phones geo-location to arm and disarm the camera so the cover closes when you come home, and automatically opens when you leave.

Why is the Arlo Essential Indoor the best indoor camera?

- Recommended by Verisure - Europe's No.1 Security Alarm Providers
- An indoor camera that puts you in control of your privacy for total peace of mind
- All of Arlos most popular outdoor security camera features – now inside

Help your customer build their home security system
